“Kick Off Meeting of project C2CC – Cradle to Cradle Composites”
Kick Raw Materials – Upascaling – KAVA 5 – 2019-2022
Roma, 3rd of July 2019
ENEA – Lungotevere Thaon di Revel n. 76

09.30 **Registration and welcome coffee**

10.00 **Welcome Addresses**

Roberto Morabito, ENEA Department for Sustainability (ENEA-SSPT) Director

Plenary Lectures (open to the public):

10.20 Claudio Mingazzini, ENEA *“C2CC project outline, background and ENEA role”*

10:50 Matteo Basso, CRF *“Which are the best recyclable composites for the automotive? CAD, CAE and modelling activity about the 500 Abarth hood C2CC project demonstrator”*

11:10 Andrea Ceresani, AM Composites *“The production of the 500 Abarth hood C2CC project demonstrator, exploiting recyclable prepregs: what opportunities for composite manufacturers”*

11:30 Juan Ramon Alonso, GAIKER *“The task of developing an innovative prepreg: challenges and prospects of the combination of recyclable bio-epoxies and recyclable mineral fibers”*

11:50 Enrico Benco, GS4C *“Recyclable composite materials: a general vision of the innovations which appear to be promising for a green revolution”*

12:10 Cristian Chiavetta, ENEA *“LCA as sustainability indicator; ECESP and ICESP initiatives”*

12:30 Question time (15 min).

12:45 **Lunch**

13.30-17 **Project meeting (7th floor, “Sala Commissione Tecnica”, for C2CC partners only):**

This activity has received funding from the European Institute of Innovation and Technology (EIT), a body of the European Union, under the Horizon 2020, the EU Framework Programme for Research and Innovation
